

# Timmering Wines Vineyard Management Services

Timmering Wines is professionally run Heathcote vineyard operator using state of the art viticultural practices. We take enormous pride in our viticultural skills and equipment. We have now established a vineyard management operation.

The range of services we can provide are set out in the attached document as well as the costings.

We are very flexible in meeting our clients' needs and will work with you to achieve your practice programs.

We have the capacity to undertake double shifts per day if that is suitable and necessary.

We welcome visits to our vineyard to view the standards we have achieved in our viticultural practices.

# Contract Harvesting

---

We use a Pellenc 8090 super select machine. We undertake harvesting operations in proximity to our vineyard. The machine carries 2.5 tons of fruit on board which can be emptied at the end of a row. No bin chaser is required to follow the machine down the road providing significant savings.

## **Cost**

21 cents per meter plus GST (inclusive of the operator). There is a \$130 wash down fee. Plus travel costs

# Precision Pruning

---

We currently have the only ERO VSL HD one pass box pruner in Victoria. The pruner has been developed to affect a high-quality result as well as mulching the canes off the wires. The machine completes two tasks in one operation thus significantly reducing costs. Very little hand clean up is required, only on the downward facing spurs. It has reduced the hand clean up on our vineyard by more than 50%.

## **Cost**

13 cents per meter which equates to approx \$170 per acre or \$430 per hectare plus GST. The saw sharpening is \$130 plus GST per blade with 4 blades per day. Plus travel costs

# Hedging

We provide two 1.2 meter front mounted hedger bars which enables two insides to be completed in one pass. Travel speed is normally up to 9 kph.

## **Cost**

\$165 per hour plus GST. Plus travel costs

# Sowing

---

We can provide a 1.8 meter power harrow and air seeder and include a 2.4 meter aerator to enable sowing and aerating to occur in one pass.

## **Costs**

Harrow and air seeder \$195 per hour plus GST

Additional 2.4m aerator \$279 per hour plus GST

Plus travel costs
